

Success Story of Odisha Millets Mission Raikia block - Kandhamal district

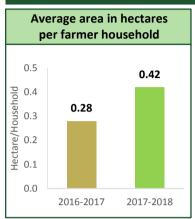

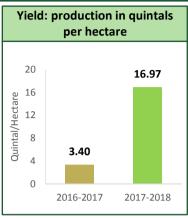

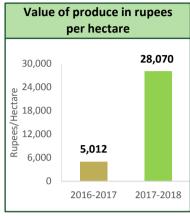

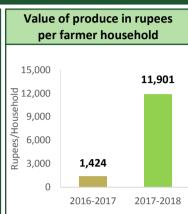

This factsheet presents the block-level findings and other information derived from the study "Area, Yield, Production and Value of Produce under the Special Programme for Promotion of Millets in Tribal Areas of Odisha (Odisha Millets Mission), 2017-18, Phase-1" and baseline (2016-17) reports prepared by Professor Srijit Mishra and team at NCDS.

OUTCOMES: CHANGES AFTER ONE YEAR OF OMM INTERVENTION

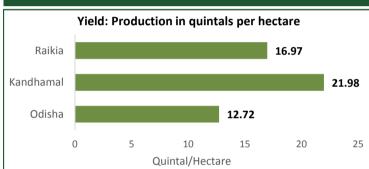

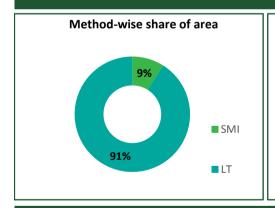

YIELD COMPARISON AMONG BLOCK, DISTRICT AND STATE

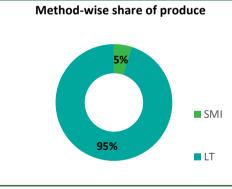

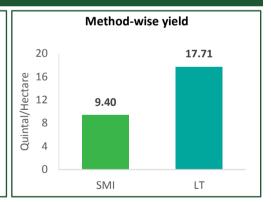

In Raikia, the yield of 16.97 quintal/hectare in 2017-18 for millets cultivated under OMM was 4.99 times higher than the yield of 3.40 quintal/hectare in 2016-17 for millets cultivated in baseline.

Under OMM in 2017-18, yield of millets in Raikia at 16.97 quintal/hectare is lower than Kandhamal district's yield of 21.98 quintal/hectare but greater than the state's average yield of 12.72 quintal/hectare.
