## **Success Story of Odisha Millets Mission** Kundra block - Koraput district

This factsheet presents the block-level findings and other information derived from the study "Area, Yield, Production and Value of Produce under the Special Programme for Promotion of Millets in Tribal Areas of Odisha (Odisha Millets Mission), 2017-18, Phase-1" and baseline (2016-17) reports prepared by Professor Srijit Mishra and team at NCDS.

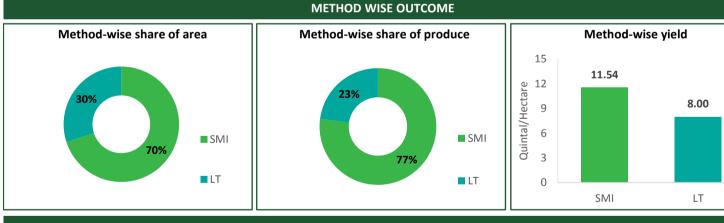

## YIELD COMPARISON AMONG BLOCK, DISTRICT AND STATE

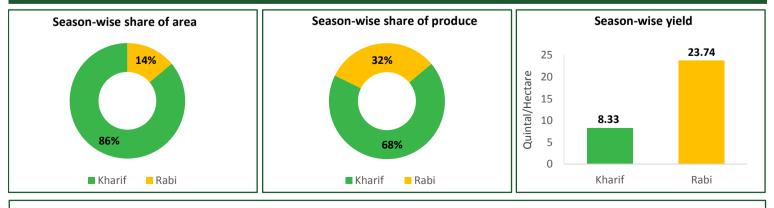

In Kundra, the yield of 10.48 quintal/hectare in 2017-18 for millets cultivated under OMM was 1.71 times higher than the yield of 6.13 guintal/hectare in 2016-17 for millets cultivated in baseline.

Under OMM in 2017-18, yield of millets in Kundra at 10.48 quintal/hectare is lower than Koraput district's yield of 11.95 quintal/hectare and the state's average yield of 12.72 quintal/hectare.

SEASON WISE OUTCOME

Abbreviations: OMM- Odisha Millets Mission, SMI- System of Millet Intensification, LT- Line Transplantation
